WOOD TABLES COLLECTION

Giorgio Cattelan was breathing the scent of wood in his father's workshop from an early age and this is where his passion for art and materials was born and took shape. Cattelan Italia renders its craftsmanship unique by skillfully creating recognisable shapes that nevertheless respect the natural soul of the raw material.

Fin da giovane Giorgio Cattelan ha respirato il profumo del legno nel laboratorio del padre, luogo in cui è nata e ha preso forma la sua passione per i materiali e l'arte manifatturiera. Cattelan Italia personalizza la propria lavorazione del legno, creando forme uniche e riconoscibili, ma che rispettano l'anima naturale del materiale grezzo.
