Brushed Finishes

cattelan italia

The metallic effect has become a key feature in the modern furniture sector for its industrial, incisive and elegant style. Its most appreciated qualities are durability and its ability to match perfectly with more traditional materials such as marble or wood. Different finishes are available, ranging from the smooth and uniform Oxy coatings to the Brushed version with a “scratched” effect. Each piece bears all the precious imperfections of handcrafted workmanship, standing out for its unique colors and designs.

L'effetto metallizzato si è imposto nel settore dell'arredamento moderno per il suo stile industriale, incisivo ed elegante. Le caratteristiche più apprezzate del metallo sono la resistenza e la capacità di abbinarsi perfettamente ai materiali più tradizionali come il marmo o il legno. Sono disponibili diverse finiture realizzate manualmente, che spaziano dalle verniciature lisce e omogenee degli Oxy agli spazzolati Brushed con effetto "graffiato". Ogni creazione si fregia di tutte le preziose imperfezioni della lavorazione artigianale, distinguendosi per le cromie e i disegni unici.
